# TraitSet® Report for Mary MathSmart

## OVERALL

### Money Math = 75%

This is a PERCENTAGE of the correctly answered questions.

## TraitSet® Definitions

**Money Math**: The percent score reported is based on the number right divided by the total. Hence, if you had 9 right out of 12 your score would be 75%. This allows each company to establish acceptable cutoff scores (e.g., 45%, 60% and so on) that best meet their needs.

| Questions | Correct Answers | Candidate's Answers |
|---|---|---|
| 1) You sell 3 hamburgers at $2.10 each plus 0.38 tax. A customer gives you a $10.00 bill. How much change does he get? | [Will be given] | [Will be given] |
